Core Product

Item	Description
Attendance	Multiple bugs have been addressed: • Cross-Site attendance is now being sent to the serving school on the last day School/calendar name is now appearing on the ADA/ADM Report - CSV
Enrollment	The Enrollment Cleanup Wizard has been enhanced to allow school staff to update enrollment end dates, end actions, and statuses directly, rather than requiring technician assistance. This change improves the ability for districts to manage their own enrollment data.
Forms/Documents	Custom Forms can be configured to allow guardians and students to initiate the form process in the Portal. This includes new settings in the Custom Forms Setup tool. Form statuses were also updated to clarify those requiring intervention. See the Forms article for the new statuses and status groupings. In addition, a new Student Form Center tool was added as a centralized dashboard for forms. This tool allows form administrators to easily find forms that require intervention, including those initiated from the Portal. Also, with this update, all custom form tools were moved to a new folder location in the UI: Student Information | Custom Forms and Custom Modules. This includes the Custom Form Batch Setup, Custom Form Setup, Custom Module Setup, and Student Form Center tools.
FRAM	The USDA Eligibility Manual for School Meals does not permit the Free Income Guide to be included in descriptive materials distributed to households. As a result, the Include Free Eligibility Income Chart option has been removed.

Item	Description
	If the Include Free Eligibility Income Chart checkbox was previously selected, resave the FRAM > Setup > FRAM Communication > Online Application Content > Letter to Household to remove the chart from the letter displayed in Campus Parent.
