OCTE PATHWAY PHASEOUT PROCESS

This document provides a list of all Career Pathways that are being phased out, added as new or experiencing a name change.

For Pathways Being Phased Out

- Please consider moving students enrolled in these pathways to suggested options.
- Suggested Career Pathways WILL NOT be automatically added.
  - Students that will not reach concentrator or completer status prior to the listed Phase Out Date should be enrolled in one of the suggested pathways.
- Schools MUST make the request to add a new pathway following the appropriate process. Details for adding pathways can be found here: https://education.ky.gov/CTE/ctepa/Documents/Career_Pathways_Guidance.pdf
  - Pathways may not be added for the current school year
  - Requests to add pathways for the upcoming year may only be submitted February 1 - August 21, 2026
- No new students may be enrolled in a pathway being phased out after the listed Last Enroll Date.
  - If a student is removed from a phased-out pathway (record end-dated or termination status entered) the student may not be re-enrolled in the pathway.
- Once the pathway has completely phased out, it will no longer be visible in TEDS.

For Pathways with Name Changes

- CIP codes will not change.
- The pathway name will automatically change for students that were previously enrolled in the pathway.
- To ensure you enroll new students in the correct pathway, make sure to verify the CIP code prior to enrollment.

For New Pathways

- New Pathways should be visible in Infinite Campus at the beginning of the active school year.
- New Pathways should be available in TEDS after the September 1 rollover.
- Do not attempt to backdate a student enrollment for a date prior to the effective date of the new pathway.
