

How to Identify Course Offerings for Your Pathways

READ EVERYTHING BEFORE YOU DO ANYTHING...

- The window to identify courses for the 2026-2027 school year opens when TEDS opens for the school year and should be completed by December 1.
- Identify only courses you are offering during the current school year
- **PATHWAY MODIFICATIONS:** If you have been approved for or submitted a request for a pathway modification, you do not need to add that course.
- If the course is being offered and not selected, it will not be counted for supplemental funding.
- If the course is NOT offered, but it is selected, it may trigger a funding violation that could impact supplemental funding.

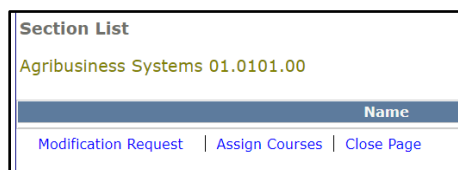

Log in to TEDS.

1. If you do not see your list of pathways, click + sign next to Pathway Sections then Click on a pathway to identify courses.

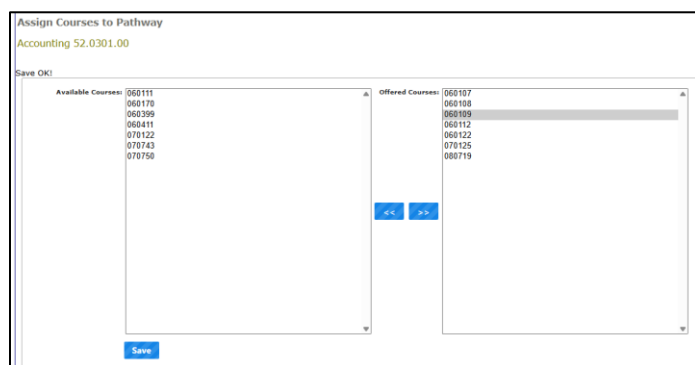

(figure 1)

2. Under Section List, select Assign Courses.

(figure 2)

3. Select all courses you will offer in the current year and use the arrows to move it to the “Offered Courses” field.

4. Once all courses have been selected and moved to the boxes on the right, select SAVE.
5. Repeat steps 1-4 for each pathway.
