IXL Math

Universal Screener

Variable	Details
Description	IXL's Universal Math Screener is a criterion-referenced, adaptive assessment for grades K–8 that identifies students at risk of not meeting grade-level math standards. It delivers quick, accurate results in about 20 minutes and provides composite and strand-specific scores across five domains: Numbers & Operations, Algebra & Algebraic Thinking, Fractions, Geometry, and Data & Measurement. Administered up to five times per year, the screener adjusts to student ability in real time and offers detailed reports to guide intervention planning.
