As you read the instructions and make the recipe together:

- Examine the tools you have.
- Order the measuring tools by size (smallest to largest or the other way around).
- Discuss the difference between 1 cup and 1 tablespoon. Which is bigger? How do you know?
- Let your children do the scooping and measuring. Show them how to level off their measurements for accuracy.
- What other things could we do together that would let you practice things like this?
- What would happen if we didn't use the correct measurements?
- What if you could only use ___?
