6. Based upon the report type selected, the following options may appear:

Budget Level: Indicate the budget level from the projection to report.

Percentage change calculation method:

Used to determine how to compute the percent next year's budget has changed. Suggest selecting 4- (Level – Revised)/Revised

Print first or second year of budget requests = First - Available in Type 1 – Next Year/Current Year Budget Analysis; Type 2 – Next Year Budget Levels Report; Type 5 – Next Year Budget Comparison Report

Detail lines: Select Both, Denied or Approved. Only available with report type 3 – Next Year Budget Detail Report.

7. **Period Number:** Several of the report options provide access to the “Period number” field. This field is used to report current year expenses/revenues through a period. To report on expenses/revenues through the report date, place 99 in this field.
8. **Include cfwd in rev bud:** The field determines whether the revised budget figures on the report will reflect outstanding encumbrances carried forward from the prior year. The default is “Y” and should not be changed.
9. After selecting preferred options click **Accept** to return to the main report screen.
10. Select an output option to view the report.
