Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Calloway County School District (District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Independent Auditor's Contract*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Calloway County School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information and pension and postemployment benefits schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board

who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, accompanying combining and individual nonmajor fund financial statements, other information and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, other information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Calloway County School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**CALLOWAY COUNTY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2025**

As management of the Calloway County School District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2025. The District encourages readers to consider the information presented here in conjunction with additional information that has been furnished in the letter of transmittal, notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

- The ending cash and investments balance for the District was \$26.0M in 2025 and \$18.5M in 2024.
- In total, net position increased \$4.2M. The net position of governmental activities increased \$4.3M, while the net position of business-type activities decreased (\$150K). Total assets were \$70.6M at June 30, 2025 compared to \$56.9M at June 30, 2024 and total liabilities were \$41.6M at June 30, 2025 compared to \$32.5M at June 30, 2024.
- Total revenues were \$46M for the year. General revenues accounted for \$25M, 53.97% of the total, while program specific revenues, in the form of charges for services and sales, grant and contributions accounted for \$21.2M or 46.03% of total revenues. The District incurred \$42M in total expenses.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources. All of the current year revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position – the difference between the District's assets plus deferred outflows of resources and the District's liabilities plus deferred inflows of resources – is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, the reader needs to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

**CALLOWAY COUNTY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2025**

In the government-wide financial statements, the District's activities are reported as governmental activities and business-type activities.

- Governmental activities – All the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of the activities.
- Business-type activities – These include operations that are financed and operated similarly to private businesses, such as the School Food Service, Day Care and Adult Education Fund. Charges for services and federal reimbursements fund these activities.

Fund financial statements – The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like federal grants).

The District has three kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, the District provides additional information with the governmental funds statements that explain the relationship (or differences) between them.
- *Proprietary funds* – The District's proprietary fund are Food Service, Day Care Fund and Adult Education Fund. The proprietary fund statements are the same as the business-type activities in the government-wide statements, but provide more detail and additional information, such as cash flows.
- *Fiduciary fund* – The District is a fiduciary for assets that belong to others and is responsible for ensuring that assets reported in the fiduciary funds are used only for their intended purposes. These funds are excluded from the government-wide financial statements because the assets cannot be used to finance the operations of the District.

**CALLOWAY COUNTY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2025**

Notes to the financial statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information – In addition to the basic financial statements and accompanying notes, this report also provides certain required supplementary information, as well as combining and individual fund statements and schedules, as listed in the table of contents.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets plus deferred outflows exceeded liabilities plus deferred inflows by \$27.1M as of June 30, 2025.

A significant portion of the District's net position, \$15.7M, reflects its investment in capital assets less any related debt used to acquire those assets that is still outstanding. The District uses capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$7M, represents resources subject to external restrictions on how they may be used.

The net pension liability (NPL) and the net other postemployment benefits (OPEB) liability are the largest liabilities reported by the District as of June 30, 2025. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows of resources related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows of resources related to pension and OPEB.

**CALLOWAY COUNTY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2025**

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for-benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. Changes in benefits, contribution rates and return on investments affect the balance of these liabilities but are outside the control of the local government.

In the event that contributions, investment returns and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows of resources.

The Kentucky School Facilities Construction Commission (SFCC) makes direct payments of principal and interest on District bonds issued for construction of facilities. The bonds payable are included in the long-term obligations of the District, and the payments are recorded as revenue from the State. The result is an increase in net position from the direct payment of principal and interest by the SFCC of \$283K. Another increase is the expenditure of current revenues on capital assets, an expenditure that does not reduce net position on the government-wide statements.

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$23M, an increase of \$4.8M in comparison with the prior year. The following schedule indicates the fund balances and the total changes in fund balances by major fund and other governmental (nonmajor) funds as reported in the basic financial statements for the fiscal years ended June 30, 2025 and 2024.

The main sources of the General Fund's revenues are state aid in the form of SEEK allocations and locally assessed taxes. The majority of the District's activities are accounted for in the General Fund. The Special Revenue Fund consists of grant revenues, mostly state funds and federal funds administered through the state, and expenditures of those grants for specific programs in accordance with the grants' guidelines. In addition to the Special Revenue (Grant) Fund, the District has the Special Revenue District Activity Fund and the Special Revenue Student Activity Fund, which includes funds restricted to expenditures for purposes specified by Kentucky Department of Education requirements.

The SEEK Capital Outlay Fund's revenues are derived from state SEEK allowances based upon student enrollment. The FSPK Building Fund's revenues are produced by a five-cent property tax equivalent. The use of both funds' resources is generally restricted to facilities acquisition or improvement and payment of the related debt on facilities. The Construction Fund is used to account for facility construction and improvement projects funded by other funds or borrowing.

The Debt Service Fund is used to account for all activities related to long-term bond obligations.

**CALLOWAY COUNTY SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2025**

General Fund – The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$12.1M, while total fund balance was \$16.4M. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total expenditures. Unassigned fund balance represents 40.26% of total General Fund expenditures, while total fund balance represents 54.25% of that same amount.

Following is a summary of fund balances as of June 30, 2025 and 2024:

Governmental Funds	2025	2024	Increase (Decrease)
General Fund	\$ 16,358,045	\$ 14,834,738	\$ 1,523,307

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2025**

GENERAL FUND BUDGETARY HIGHLIGHTS

In accordance with directives from the Kentucky Department of Education (KDE) and Kentucky law, the budgets of the District funds' budgets are prepared to account for most transactions on a cash receipt/cash disbursement/encumbrance basis. The KDE requires a budget in which any budgeted remaining fund balance is shown as a contingency expense and any amounts being accumulated for other purposes are ultimately shown as unspent or over-budgeted expenditures. By law, the budget must have a minimum 2.00% contingency. The District adopted a General Fund budget with a contingency of \$3.7M or 8.91%. Over the course of the year, the District revises the annual operating budget as circumstances dictate or as required by KDE.

The General Fund budget included \$8.7M of state payments on behalf of District employees for retirement and health benefits. These payments are reflected in the GAAP basis actual amounts as state program revenues and in each type of expenditure in relation to wages paid, with the major portion contained in instructional expenditures. Local revenues are budgeted conservatively resulting in a favorable variance of local revenues for the year.

- The District's total revenues for General Fund activities for the fiscal year ended June 30, 2025, excluding interfund transfers and beginning balances, were \$32.1M compared to the total budgeted revenues of \$31.5M.
- The District's total expenditures for General Fund activities for the fiscal year ended June 30, 2025, excluding interfund transfers, were \$30.2M compared to the total budgeted expenditures of \$42.0M.
- The fund balance at the end of the 2025 fiscal year for all Governmental Funds was \$23.0M compared to \$18.2M in the prior year.

Significant Board action that impacts the District's finances includes the award of multiple contracts and salary increases mandated by the Legislature.

Special Revenue Fund (Fund 2) is made up of state, local and federal grants. These grants include Title I, Preschool, Special Education and others. These funds have restricted use, according to the guidelines for each. Expenditures include salaries and benefits, supplies and transportation.

SEEK Capital Outlay Fund (Fund 310) and FSPK Building Fund (Fund 320) are restricted funds for capital projects. The State contributes to Fund 310.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – At June 30, 2025, the District had \$41.5M invested in capital assets net of depreciation; historical cost totaled \$92.8M with accumulated depreciation totaling \$51.3M. These assets include school, athletic and support facilities, as well as technology, food service and other equipment. Expenditures for acquisitions and improvements during the year totaled \$9.6M. Depreciation charged to expense during the year totaled \$2.5M, the majority of which was charged to governmental functions. More detailed information relating to capital assets may be found in Note 3 to the financial statements.

Long-term Debt – The District's long-term general obligation bonds outstanding at June 30, 2025 were \$26M. Of that amount, the Kentucky SFCC has agreed to make a portion of the principal and interest payment under agreements previously described. Though the District is liable for the full amount of the bonds and the full amount is recorded on the financial statements, the SFCC has agreed to pay \$3M of the bonds leaving the District to pay \$23M.

The State must approve the issuance of any new bonds of the District.

More detailed information about the District's long-term liabilities may be found in Note 4 to the financial statements.

OUTLOOK FOR THE FUTURE

The most crucial aspect in the financial future of the District is continued adequate funding from the state. The District's major source of revenue is state aid, primarily Kentucky SEEK funding.

The District's financial position is contingent upon legislation and factors related to property taxation in conjunction with decisions made by the District's Board management. The District remains committed to utilizing resources to provide the maximum benefit to students and provide them with a quality education. This involves closely monitoring legislation and seeking new sources of revenues through grant writing, etc.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations and demonstrate the District's commitment to public accountability. Questions regarding this report should be directed to the District Finance Officer at the following address: Calloway County Board of Education, 2110 College Farm Road, Murray, Kentucky 42071.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES – GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2025**

Net change in fund balance - total governmental funds	\$ 4,814,859
-------------------------------------------------------	--------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expenses exceeded capital outlay in the current period:

Capital outlay	9,501,765
Depreciation expense	(2,425,439)

Joint ventures are only reported in governmental funds to the extent that current financial resources are required. In the government-wide financial statements, the entire investment is reported as a single amount adjusted for any profit or loss.	(110,528)
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------

Bond proceeds are reported as other financing sources in governmental funds and contribute to the change in fund balance. However, in the statement of net position, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of bond principal is an expenditure in the government funds financial statements but is a reduction of the liability in the statement of net position.

Bond proceeds	(9,825,000)
Net bond premium/discount on new debt	(36,262)
Bond repayments	1,085,000

Some items reported in the statement of activities do not involve current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities are:

Deferred other postemployment benefits	997,615
Deferred pension	251,985
Accumulated sick leave - noncurrent portion	136,359
Amortization of bond discount/premium	5,113
Amortization on refunding debt	(21,839)
Accrued interest on bonds	(61,511)

Change in net position of governmental activities	<u>\$ 4,312,117</u>

NOTES TO FINANCIAL STATEMENTS

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The Calloway County Board of Education (Board), a five-member group, is the level of government which has oversight responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the Calloway County School District (District). The District receives funding from local, state and federal government sources and must comply with the commitment requirements of these funding source entities. However, the District is not a component unit of any other governmental "reporting entity". Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to develop policies which may influence operations and primary accountability for fiscal matters.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

Reporting Entity

In accordance with Governmental Accounting and Financial Reporting Standards, the basic financial statements include all funds, agencies, boards, commissions and authorities for which the District is financially accountable. The District has also considered all other potential organizations for which the nature and significance of their relationships with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a majority of an organization's governing body, and 1) the ability of the District to impose its will on that organization or 2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. In addition, the GASB Statement No. 39, as amended by GASB Statement No. 61, sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the organization and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. Based on these criteria, there are no other organizations which should be included in these basic financial statements.

The financial statements of the District include those of separately administered organizations that are controlled by or dependent on the District. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

Based on the foregoing criteria, the financial statements of the Calloway County School District Finance Corporation are included in the accompanying financial statements. In 1993, the Board authorized the establishment of the Corporation (a non-profit, non-stock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS 58.180) as an agency of the District for financing the costs of school building facilities. The Board members of the Calloway County Board of Education also comprise the Corporation's Board of Directors.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Interfund services provided and used are not eliminated in the process of consolidation for these statements.

The statement of net position presents the District's nonfiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets – Consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position – Results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – Consists of net position that does not meet the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management, which can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of fund financial statements is on major funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

The *General Fund* is the main operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the fund consists primarily of local property taxes and state governmental aid. This is a major fund of the District.

The *Special Revenue Funds* account for proceeds of specific revenue sources (other than agency funds or major capital projects) that are legally restricted to disbursements for specified purposes.

The *Special Revenue (Grant Fund)* includes federal financial programs where unused balances are returned to the grantor at the close of specified project periods, as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. This is a major fund of the District.

The *Special Revenue District Activity Fund* includes funds restricted to expenditures for purposes specified by Kentucky Department of Education requirements. Project accounting is employed to maintain integrity for the various sources of funds.

The *Special Revenue Student Activity Fund* accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular to extracurricular activities of the District.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment (other than those financed by Proprietary Funds).

The *Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund* receives those funds designated by the state as capital outlay funds and is generally restricted for use in financing projects identified in the District's facility plan.

The *Facility Support Program of Kentucky Fund (FSPK)* accounts for funds generated by the building tax levy required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the District's facility plan.

The *Construction Fund* accounts for proceeds from sales of bonds and other revenue to be used for authorized construction. This is a major fund of the District.

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

The *Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. Revenue of the fund primarily consists of local property taxes.

Proprietary Fund Types

Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The District has the following enterprise funds:

The *School Food Service Fund* accounts for the food service operations of the District.

The *Day Care Fund* is used to account for day care operations of the District.

The *Adult Education Fund* is used to account for specific needs and purposes related to adult education.

Fiduciary Fund Types

Fiduciary funds account for assets held by the District in a trustee capacity for the benefit of others and cannot be used to support District activities. The District has the following fiduciary fund type:

The *Private Purpose Trust Fund* is used to report trust arrangements which benefit individuals, private organizations or other governments.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied. The District also reports a fiduciary fund which focuses on net position and changes in net position. The fiduciary fund reports on the accrual basis of accounting.

CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues – Exchange and Nonexchange Transactions

Property taxes, other taxes, grants, entitlements and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which it is budgeted. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's proprietary funds are charges for food sales or tuition and fees. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost reimbursement grant resources to such programs and then general revenues.

CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure to restricted fund balance and then to less restrictive classifications—committed, assigned and then unassigned fund balances.

The Significant Accounting Policies Followed by the District Include the Following:

Cash and Cash Equivalents

The District considers demand deposits, money market accounts and time deposits that are nonnegotiable to be cash and cash equivalents for the governmental, proprietary and fiduciary funds. This definition is also used for the proprietary funds' statement of cash flows.

The District may invest funds in a bank depository selected by the Board, bonds of the United States, or instruments issued by political subdivisions of Kentucky; however, such investments must be approved by the Kentucky Department of Education.

Property Taxes Receivable

Property taxes receivable in the governmental funds are accounted for using the modified accrual basis of accounting.

Property taxes collected are recorded as revenues in the fund for which they were levied. Property taxes are levied on the assessed value listed as of the prior January 1 for all real, business and personal property located in the District. The usual collection date is the period of November 1 through December 31. Taxes become delinquent after December 31.

The property tax rates for the year ended June 30, 2025, to finance the General Fund operations, were \$.435 per \$100 valuation for real property, \$.435 per \$100 valuation for business tangible personal property and \$.521 per \$100 valuation for motor vehicles.

Inventories

Inventories are valued at cost, which approximates market. The Food Service Fund uses the specific identification method, and the General Fund uses the first-in, first-out method. The District's inventories include various items consisting of school supplies, paper, books, maintenance items, transportation items, commodities, etc. USDA commodities received from the Federal government are recorded at the value established by the Federal government using the average cost method.

Prepaid Expenditures

Payments made that will benefit periods beyond the end of the fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase, and an expenditure/expense is reported in the year in which services are consumed.

CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Restricted Assets

Certain investments of the District's Debt Service Fund are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants and they are maintained in a separate account.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000 for all assets, including technology, which has a useful life of more than one year. The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add value to the value of the asset or materially extend an asset's life are not. Improvements are depreciated over the remaining useful lives of the related capital assets.

All reported capital assets, except land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

<u>Description</u>	<u>Estimated Lives for Depreciation</u>
Buildings and improvements	25 - 50 years
Land improvements	20 years
Leasehold Improvements	25 - 50 years
Software	7 years
Equipment (including technology)	5 years
Vehicles	5 - 10 years

Unearned Revenue

Proprietary funds defer revenue recognition in connection with resources that have been received, but not earned. Unearned revenue in governmental funds arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. Unearned revenue consists primarily of school registration fees and meal revenues collected for the programs and services in the next school year.

Subscription-Based Information Technology Arrangements

The District reviewed its information-technology service arrangements under GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. Management concluded that the District does not have any subscription asset and corresponding liability. Accordingly, no SBITA assets or liabilities are reported as of June 30, 2025.

Debt Premiums and Discounts

Unamortized premiums and discounts associated with bond issues are amortized over the lives of the related bonds using the straight-line method and are an addition (premium) or deduction (discount) to the debt balances in the government-wide statements.

Compensated Absences

Compensated absences are payments to employees for accumulated sick leave. These amounts also include the related employer's share of applicable taxes and retirement contributions. District employees may accumulate unused sick leave up to a specified amount depending on their date of hire. Sick leave is payable to employees upon termination or retirement at 30.00% of the current rate of pay on the date of termination or retirement. The District uses the termination method to calculate the compensated absences amounts. The entire compensated absence liability is reported on the government-wide financial statements. The current portion is the amount estimated to be used in the following year. An expenditure is recognized in the governmental fund as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

In accordance with GASB Statement No. 101, the liability includes only those benefits that are both attributable to service already rendered and more-likely-than-not to be paid.

Long-term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Leases

Lease contracts that provide the District with control of a non-financial asset, such as land, buildings or equipment, for a period of time in excess of twelve months are reported as a leased asset with a related lease liability. The lease liability is recorded at the present value of future lease payments, including fixed payments, variable payments based on an index or fixed rate and reasonably certain residual guarantees. The intangible leased asset is recorded for the same amount as the related lease liability plus any prepayments and initial direct costs to place the asset in service. Leased assets are amortized over the shorter of the useful life of the asset or the lease term. The lease liability is reduced for lease payments made, less the interest portion of the lease payment.

The District reviewed all lease and lease-type agreements in accordance with GASB Statement No. 87, *Leases*, and determined that no arrangements in effect as of June 30, 2025, meet the criteria for recognition as right-to-use lease assets or related lease liabilities.

Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, OPEB and OPEB expense, information about the fiduciary net position of the County Employees Retirement System Non-Hazardous (CERS) and Teachers' Retirement System of the State of Kentucky (TRS) and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the pensions. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate financial statement element, *deferred outflows of resources*, which represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category: the deferred outflows of resources related to the net pension liability described in Note 10, the net OPEB liability described in Note 11 and the deferred amount on refunding of debt.

In addition to liabilities, the statement of net position will sometimes report a separate financial statement element, *deferred inflows of resources*, which represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category: the deferred inflows of resources related to the net pension liability as described in Note 10 and the net OPEB liability described in Note 11.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Cash Flows

For the purposes of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned – Amounts the Board of Education intends to use for specific purposes. The authority to assign fund balances has been designated by the District's Board of Education to the Finance Officer.

Unassigned – All amounts not included in other spendable classifications as well as any deficit fund balance of any other governmental fund is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned funds and then unassigned.

Net Position

In proprietary funds, fiduciary funds and government-wide financial statements, net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on its use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Interfund activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the District's management to make estimates and assumptions that affect reported amounts of certain financial statement balances. Actual results could differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through December 10, 2025, which is the date the financial statements were available to be issued.

NOTE 2 – CASH AND CASH EQUIVALENTS

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. As stipulated by KRS 41.240(4), all deposits are collateralized with eligible securities or other obligations having an aggregate current face value or current quoted market value at least equal to the deposits. The District does not have a deposit policy for custodial credit risk but rather follows the requirements of KRS 41.240(4).

At June 30, 2025, the carrying amount of the District's deposits was \$26,002,866 and the bank balance was \$28,166,673. Of the District's bank balance, \$27,916,673 was collateralized while \$250,000 was covered by Federal Deposit Insurance.

For purposes of the statement of cash flows, the District considers all investments with a maturity of three months or less when purchased to be cash equivalents.

The carrying amounts are reflected in the financial statements as follows:

NOTE 4 – LONG-TERM OBLIGATIONS

The District's debt is the responsibility of the governmental activities.

The original amount of each bond issue, the bond issue dates, interest rates and maturity dates are summarized below:

<u>Issue</u>	<u>Proceeds</u>	<u>Interest Rates</u>	<u>Maturity Dates</u>
2013	\$ 5,995,000	1.70% - 4.125%	2034

2021	10,735,000	2.00%	2041
2025	9,825,000	4.00-5.00%	2045

The District, through the General Fund, including utility taxes and the Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund is obligated to make lease payments in amounts sufficient to satisfy debt service requirements on bonds issued by the Calloway County Fiscal Court and the Calloway County School District Finance Corporation to construct school facilities. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

In 1986, the District entered into "participation agreements" with the School Facilities Construction Commission (SFCC). The Commission was created by the Kentucky Legislature for the purpose of assisting local school districts in meeting school construction needs. The table below sets forth the amount to be paid by the District and the Commission for each year until maturity of all bond issues. The liability for the total bond amount remains with the District and, as such, the total principal outstanding has been recorded in the financial statements.

The bonds may be called prior to maturity, and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the District, including amounts to be paid by the Commission, at June 30, 2025, for debt service (principal and interest) are as follows:

<u>Year</u>	<u>Calloway County School District</u>		<u>School Facilities Construction Commission</u>		<u>Total</u>

NOTE 5 – COMPENSATED ABSENCES

Upon retirement from the school system, employees will receive from the District an amount equal to 30.00% of the value of accumulated sick leave. For governmental fund financial statements, the current portion of unpaid accrued sick leave is the amount expected to be funded with current year's economic financial resources. These amounts are recorded in the account "accrued sick leave payable" in the General Fund. Management has estimated that the amount for governmental activities will be approximately \$299,940, with \$49,326 considered the short-term portion and \$250,614 considered the long-term portion. Management has estimated that the amount for business-type activities will be approximately \$35,868, with \$1,478 considered the short-term portion and \$34,390 considered the long-term portion.

NOTE 6 – NET POSITION DEFICIT BALANCE

The School Food Service Fund has a deficit balance of (\$440,443). Excluding the effect on net position of GASB 68 related pension accounts and of GASB 75 related OPEB accounts of (\$1,819,440), School Food Service Fund has a net position of \$1,378,997. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTE 10 – PENSION PLANS

The District's employees are provided with two pension plans based on each position's college degree requirement. The County Employees Retirement System Non-Hazardous (CERS) covers employees whose position does not require a college degree or teaching certification. The Teachers' Retirement System (TRS) covers positions requiring teaching certification or otherwise requiring a college degree

General Information about the County Employees Retirement System Non-Hazardous (CERS) Pension Plan

Plan description – Full-time employees whose positions do not require a degree beyond a high school diploma are covered by CERS, a cost-sharing, multiple-employer defined benefit plan administered by the Board of Trustees of the Kentucky Public Pensions Authority (KPPA). The CERS financial statements and other supplementary information are contained in the publicly available annual financial report of the KPPA. That report may be obtained from <http://kyret.ky.gov/>.

Benefits provided – CERS provides retirement, death and disability benefits to Plan employees and beneficiaries. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. For retirement purposes, employees are grouped into three tiers, based on hire date:

Tier 1	Participation date	Before September 1, 2008
	Unreduced retirement	27 years' service or 65 years old
	Reduced retirement	At least 5 years' service and 55 years old
	Required contributions	At least 25 years' service and any age 5.00%
Tier 2	Participation date	September 1, 2008 – December 31, 2013
	Unreduced retirement	At least 5 years' service and 65 years old or age 57+ and sum of service years plus age equal 87
	Reduced retirement	At least 10 years' service and 60 years old
	Required contributions	5.00% + 1.00% for insurance

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 10 – PENSION PLANS, continued

Tier 3	Participation date	After December 31, 2013
	Unreduced retirement	At least 5 years' service and 65 years old or age 57+ and sum of service years plus age equal 87
	Reduced retirement	Not available
	Required contributions	5.00% + 1.00% for insurance

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice-related disability benefits.

Contributions – Per Kentucky Revised Statute 61.565, normal contribution and past service contribution rates shall be determined by the Board of Trustees of the Kentucky Public Pensions Authority on the basis of an annual valuation last preceding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. For the year ended June 30, 2025, plan members were required to contribute 5% of their annual creditable compensation. Plan members hired subsequent to September 1, 2008 were required to contribute 6% of their annual creditable compensation. The District is required to contribute at an actuarial determined rate. For the fiscal year ended June 30, 2025, participating employers contributed 19.71% of each employee's creditable compensation.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability of \$7,648,065 for its proportionate share of the net pension liability. The net pension liability of the plan was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The District's proportion of the net pension liability was based on the employees and former employees relative to the total liability of the System as determined by the actuary. For the measurement period ended June 30, 2024, the District's proportion was 0.127885%.

Since certain expense items are amortized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce pension expense, they are labeled deferred inflows. If they will increase pension expense, they are labeled deferred outflows. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average remaining service life of the active and inactive System members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five-year period.

For the measurement period ended June 30, 2024, the District recognized pension expense of \$531,926. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 370,180	
Change of assumptions	-	345,542
Net differences between projected and actual earnings on pension plan investments	525,250	1,016,979
Changes in proportion and difference between District contributions and proportionate share of contributions	167,344	358,232
District contributions subsequent to the measurement date	<u>870,087</u>	<u>-</u>
Total	<u>\$ 1,932,861</u>	<u>\$ 1,720,753</u>

For the year ended June 30, 2025, \$870,087 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026.

Other amounts reported as deferred outflows of resources and deferred inflows of resources to pensions will be recognized in pension expense as follows:

Actuarial assumptions – For financial reporting, the actuarial valuation as of June 30, 2024 was performed by Gabriel Roeder Smith (GRS). The total pension liability, net pension liability and sensitivity information as of June 30, 2024 were based on an actuarial valuation date of June 30, 2023. The total pension liability was rolled forward from the valuation date to the plan’s fiscal year ending June 30, 2024 using generally accepted actuarial principles.

The CERS Board of Trustees adopted new actuarial assumptions on May 9, 2024 and included a change in the investment return assumption from 6.25% to 6.50%. These assumptions are documented in the report titled “2023 Actuarial Experience Study for the Period Ending June 30, 2023”. The total pension liability as of June 30, 2024, is determined using these updated assumptions.

Long-term rate of return – The long-term expected return on plan assets was determined by using a building-block method in which best-estimated ranges of expected future real returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class and summarized in the following tables:

Discount rate – The single discount rate used to measure the total pension liability for the fiscal plan year ending June 30, 2024 was 6.50% for nonhazardous and hazardous employees. The projection of cash flows used to determine the single discount rate for each plan must include an assumption regarding actual employer contributions made each future year. Except where noted below, future contributions are projected assuming that each participating employer in each pension plan contributes the actuarially determined employer contribution each future year calculated in accordance with the current funding policy, as most recently revised by House Bill 8, passed during the 2021 legislative session. The assumed future employee contributions reflect the provisions of House Bill 362 (passed during the 2018 legislative session) which limit the increases to the employer contribution rates to 12% over the prior fiscal year through June 30, 2028. The discount rate determination does not use a municipal bond rate.

Sensitivity of the District's proportionate share of net pension liability to changes in the discount rate – The following table presents the District's proportionate share of the net pension liability, calculated using the discount rates selected by the pension system, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

General information about the Teachers' Retirement System of the State of Kentucky (TRS) Pension Plan

Plan description – Teaching-certified employees of the District and other employees whose positions require at least a college degree are provided pensions through the Teachers' Retirement System of the State of Kentucky (TRS) — a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the KRS. TRS is a blended component unit of the Commonwealth of Kentucky and, therefore, is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at <http://trs.ky.gov/financial-reports-information/>.

Benefits provided – For employees who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, employees become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, employees must either:

1. Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
2. Complete 27 years of Kentucky service.

Participants who retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university employees with an account established prior to July 1, 2002 receive monthly payments equal to 2.00% (service prior to July 1, 1983) and 2.50% percent (service after July 1, 1983) of their final average salaries for each year of credited service. New members (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to 2.00% of their final average salary for each year of service if, upon retirement, their total service was less than ten years. New members after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.50% of their final average salary for each year of service, including the first ten years. In addition, members who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.50% to 3.00% to be used in their benefit calculation. Effective July 1, 2008, the System has been amended to change the benefit structure for employees hired on or after that date.

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 10 – PENSION PLANS, continued

For participants hired on or after January 1, 2022, conditions for retirement are attainment of age fifty-seven (57) and ten (10) years of service or age sixty-five (65) and five (5) years of service. The annual foundational benefit for non-university participants is equal to service times a multiplier times final average salary. The multiplier ranges from 1.70% to 2.40% based on age and years of service.

Age	Years of Service			
	5-9.99	10-19.99	20-29.99	30 or more
57-60	-	1.70%	1.95%	2.20%
61	-	1.74%	1.99%	2.24%
62	-	1.78%	2.03%	2.28%
63	-	1.82%	2.07%	2.32%
64	-	1.86%	2.11%	2.36%
65 and over	1.90%	1.90%	2.15%	2.40%

The annual foundational benefit is reduced by 6% per year from the earlier of age 60 or the date the participant would have completed 30 years of service.

Final average salary is defined as the member's five (5) highest salaries for those with less than 27 years of service. Members at least age 55 with 27 or more years of service may use their three (3) highest annual salaries to compute the final average salary. TRS also provides disability benefits for vested members at the rate of sixty (60) percent of the final average salary. A life insurance benefit, payable upon the death of a member, is \$2,000 for active contributing members and \$5,000 for retired or disabled members. For members who entered on or after January 1, 2022, the life insurance benefit payable upon the death of a member is \$5,000 for active contributing members and \$10,000 for retired or disabled members.

Cost of living increases are one and one-half (1.5) percent annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

Contributions – Contribution rates are established by Kentucky Revised Statutes (KRS). For members who began participating before January 1, 2022, non-university members are required to contribute 12.855% of their salaries to the System. For members employed by local school districts, the Commonwealth of Kentucky, as a non-employer contributing entity, contributes 13.105% of salaries for those who joined before July 1, 2008 and 14.105% for those who joined on or after July 1, 2008, and before January 1, 2022. For members who began participating on or after January 1, 2022, non-university members contribute 14.75% of their salaries to the system. Employers of non-university members, including the Commonwealth of Kentucky, as a non-employer contributing entity, contribute 10.75% of salaries. For local school district and regional cooperative members whose salaries are federally funded, the employer contributes 16.105% of salaries. If a member leaves covered employment before accumulating five (5) years of credited service, accumulated member contributions to the retirement trust are refunded with interest upon the member's request.

NOTE 10 – PENSION PLANS, continued

At June 30, 2025, the District did not report a liability for its proportionate share of the net pension liability, because the Commonwealth of Kentucky provides the pension support directly to TRS on behalf of the District:

Certified employees are covered by the Teacher's Retirement System of Kentucky under a special funding situation whereby the Commonwealth of Kentucky is legally responsible for employer contributions. Accordingly, the District's proportion of the collective net pension liability for TRS is 0.000%, and related on-behalf payments are disclosed in Note 9.

District's proportionate share of TRS net pension liability associated with the District	\$ -
State's proportionate share of TRS net pension liability associated with the District	<u>64,415,507</u>
Total	<u><u>\$ 64,415,507</u></u>

The total pension liability was rolled forward from the actuarial valuation date of June 30, 2023 to the plan's fiscal year ended June 30, 2024, using generally accepted actuarial principles. The District's proportion of the net pension liability was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary.

For the measurement period ended June 30, 2024, the District recognized pension expense of (\$7,876,933) and revenue of \$7,876,933 for support provided by the State in the government-wide financial statements.

Actuarial assumptions – The total pension liability in the June 30, 2023 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement:

Inflation rate	2.50%
Investment rate of return	7.10%, net of pension plan investment expense, including inflation
Projected salary increases	3.00% - 7.50%
Municipal bond index rate	
Prior measurement date	3.66%
Measurement date	3.94%
Year FNP is projected to be depleted	N/A

Post-retirement benefit increases	1.50% annually

Mortality rates were based on the PUB2010 (Teachers Benefit-Weighted) Mortality Table projected generationally with MP-2020 with various set-forwards, setbacks and adjustments for each of the groups: service retirees, contingent annuitants, disabled retirees and active members. The actuarial assumptions used were based on the results of an actuarial experience study for the 5-year period ending June 30, 2020, adopted by the TRS Board on September 20, 2021. The Municipal Bond Index Rate used for this purpose is the June average of the Bond Buyer General Obligation 20-year Municipal Bond Index.

Long-term rate of return – The long-term expected rate of return on plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by TRS's investment consultant, are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Large Cap U.S. Equity	35.40%	5.00%
Small Cap U.S. Equity	2.60%	5.50%
Developed International Equity	15.70%	5.50%
Emerging Markets Equity	5.30%	6.10%
Fixed Income	15.00%	1.90%
High Yield Bonds	2.00%	3.80%
Other Additional Categories	8.00%	3.60%
Real Estate	7.00%	3.20%
Private Equity	7.00%	8.00%
Cash	2.00%	1.60%
Total	<u>100.0%</u>	

Discount rate – The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the employer contributions will be made at the actuarially determined contribution rates for all fiscal years in the future. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports of TRS.

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

General Information about the County Employees Retirement Systems Non-Hazardous (CERS) OPEB Plan

Plan description – The Kentucky Public Pensions Authority (KPPA) Insurance Fund was established to provide hospital and medical insurance for eligible members receiving benefits from KERS and CERS. Although the assets of the systems are invested as a whole, each system's assets are used only for the payment of benefits to the members of that plan and the administrative costs incurred by those receiving an insurance benefit.

Benefits provided – The CERS Non-hazardous Insurance Fund is a cost-sharing multiple-employer defined benefit Other Post-Employment Benefits (OPEB) plan that covers substantially all regular full-time members employed in positions of each participating county, city and school board and any additional eligible local agencies electing to participate in the System. The plan provides for health insurance benefits to plan members. OPEB may be extended to beneficiaries of plan members under certain circumstances.

Implicit subsidy – KPPA pays fully insured premiums for the Kentucky Health Plan. The premiums are blended rates based on the combined experience of active and retired members. Because the average cost of providing healthcare benefits to retirees under age 65 is higher than the average cost of providing healthcare benefits to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. GASB 75 requires that the liability associated with this implicit subsidy be included in the calculation of the total OPEB liability.

Contributions – The Commonwealth is required to contribute at an actuarially determined rate for KERS. Participating employers are required to contribute at an actuarially determined rate for CERS pensions. Per Kentucky Revised Statute Sections KERS 61.565(3) and CERS 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of the last annual valuation preceding July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. However, formal commitment to provide the contributions by the employer is made through the biennial budget for KERS. For the year ended June 30, 2025, required contribution was 0.00% of each employee's covered payroll. Contributions from the District to the CERS Insurance Fund for the year ended June 30, 2025 was \$0.

Discount rate – Single discount rates used to measure the total OPEB liability for the year ended June 30, 2024 was 5.99% for CERS Non-hazardous plans. The single discount rates are based on the expected rate of return on OPEB plan investments of 6.50%, and a municipal bond rate of 3.97%, as reported in Fidelity Index’s “20-Year Municipal GO AA Index” as of June 30, 2024. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, each plan’s fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the plan. However, the cost associated with the implicit employer subsidy was not included in the calculation of the plans’ actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the plans’ trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB), continued

The projection of cash flows used to determine the single discount rate must include an assumption regarding future employer contributions made each year. Future contributions are projected assuming that each participating employer in each insurance plan contributes the actuarially determined employer contribution each future year calculated in accordance with the current funding policy, as most recently revised by House Bill 8, passed during the 2021 legislative session. The assumed future employer contributions reflect the provisions of House Bill 362 (passed during the 2018 legislative session) which limit the increases to the employer contribution rates to 12% over the prior fiscal year through June 30 2028, for the CERS plans.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate – The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease 4.99%	Current Discount Rate 5.99%	1% Increase 6.99%
District's proportionate share of net OPEB liability	\$ 299,403	\$ (221,434)	\$ (699,354)

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the healthcare cost trend rates – The following presents the District's proportionate share of the net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

General Information about the Teachers' Retirement System of Kentucky (TRS) OPEB Plan

Plan description – Teaching-certified employees of the District are provided OPEBs through the Teachers' Retirement System of the State of Kentucky (TRS)—a cost-sharing multiple-employer defined benefit OPEB plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the state. TRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). TRS is a blended component unit of the Commonwealth of Kentucky and, therefore, is included in the Commonwealth's financial statements. TRS issues a publicly available financial report that can be obtained at <https://trs.ky.gov/financial-reports-information>.

The State reports a liability, deferred outflows of resources, deferred inflows of resources and expense as a result of its statutory requirement to contribute to the TRS Medical Insurance and Life Insurance Plans. The following information is about the TRS plans:

Medical Insurance Plan

Plan description – In addition to the OPEB benefits described above, Kentucky Revised Statute 161.675 requires TRS to provide postemployment healthcare benefits to eligible members and dependents. The TRS Medical Insurance benefit is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the medical plan may be made by the TRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

Benefits provided – To be eligible for medical benefits, the member must have retired either for service or disability. The TRS Medical Insurance Fund offers coverage to members under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. TRS retired members are given a supplement to be used for payment of their health insurance premium. The amount of the member's supplement is based on a contribution supplement table approved by the TRS Board of Trustees. The retired member pays premiums in excess of the monthly supplement. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the TRS Medicare Eligible Health Plan.

Contributions – In order to fund the post-retirement healthcare benefit, seven and one-half percent (7.50%) of the gross annual payroll of members is contributed. Three and three-quarters percent (3.75%) is paid by member contributions, three quarters percent (.75%) from state appropriation and three percent (3.00%) from the employer. The State contributes the net cost of health insurance premiums for members who retired on or after July 1, 2010 who are in the non-Medicare eligible group. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the District reported a liability of \$4,457,000 for its proportionate share of the net OPEB liability that reflected a reduction for state OPEB support provided to the District. The collective net OPEB liability was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. For the measurement period ended June 30, 2024, the District's proportion was 0.199966%.

The amounts recognized by the District as its proportionate share of the OPEB liability, the related State support and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of net OPEB liability	\$ 4,457,000
State's proportionate share of net OPEB liability associated with the District	<u>3,971,000</u>
Total	<u><u>\$ 8,428,000</u></u>

For the measurement period ended June 30, 2024, the District recognized OPEB expense of (\$112,000) and revenue of \$7,000 for support provided by the State. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 1,338,000
Changes of assumptions	1,135,000	-
Net difference between projected and actual earnings on pension plan investments	-	143,000

Mortality rates were based on the PUB2010 (Teachers Benefit-Weighted) Mortality Table projected generationally with MP-2020 with various set-forwards, setbacks and adjustments for each of the groups: service, retirees, contingent annuitants, disabled retirees and active members.

The demographic actuarial assumptions for retirement, disability incidence, withdrawal, rates of plan participation and rates of plan election used in the June 30, 2023 valuation were based on the results of the most recent actuarial experience study for the system, which covered the five-year period ending June 30, 2020, adopted by the TRS board on September 20, 2021.

The remaining actuarial assumptions used in the June 30, 2023 valuation of the health trust were based on a review of recent plan experience done concurrently with the June 30, 2023 valuation. The healthcare cost trend assumption was updated for the June 30, 2023 valuation and was shown as an assumption change in the TOL roll forward while the change in initial per capita claims costs were included with experience in the TOL roll-forward.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Large Cap U.S. Equity	35.40%	5.00%
Small Cap U.S. Equity	2.60%	5.50%
Developed International Equity	15.00%	5.50%
Emerging Markets Equity	5.00%	6.10%
Fixed Income	9.00%	1.90%
High Yield Bonds	8.00%	3.80%

Real Estate	6.50%	3.20%
Private Equity	8.50%	8.00%
Cash	1.00%	1.60%
Total	<u>100.00%</u>	

Discount rate – The discount rate used to measure the total OPEB liability was 7.10%. The projection of cash flows used to determine the discount rate was performed in accordance with GASB 75. The projection's basis was an actuarial valuation performed as of June 30, 2023. Other assumptions are listed in the TRS CAFR and in the RSI. Based on those assumptions, the OPEB plan's fiduciary net position was not projected to be depleted.

Life Insurance Plan

Plan description – TRS administers the life insurance plan as provided by Kentucky Revised Statute 161.655 to eligible active and retired members. The TRS Life Insurance benefit is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the life insurance plan may be made by the TRS Board of Trustees and the General Assembly.

Benefits provided – TRS provides a life insurance benefit of \$5,000 payable for members who retire based on service or disability if hired prior to January 1, 2022. TRS provides a life insurance benefit of \$10,000 for its members who retire based on service or disability if hired on or after January 1, 2022. TRS provides a life insurance benefit of \$2,000 payable for its active contributing members if hired prior to January 1, 2022. TRS provides a life insurance benefit of \$5,000 payable for its active contributing members if hired on or after January 1, 2022. The life insurance benefit is payable upon the death of the member to the member's estate or to a party designated by the member.

Contributions – In order to fund the post-retirement life insurance benefit, three hundredths of one percent (.03%) of the gross annual payroll of members is contributed by the State.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the District did not report a liability for its proportionate share of the collective net OPEB liability for life insurance benefits because the State of Kentucky provides the OPEB support directly to TRS on behalf of the District. The amounts recognized by the District as its proportionate share of the OPEB liability, the related State support and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of net OPEB liability	\$ -
State's proportionate share of net OPEB liability associated with the District	<u>91,000</u>
Total	<u><u>\$ 91,000</u></u>

For the measurement period ended June 30, 2024, the District recognized OPEB expense of \$0 and revenue of \$0 for support provided by the State.

Actuarial assumptions – The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.10%, net of OPEB plan investment expense, including inflation
Projected salary increases	3.00 - 7.50%, including inflation
Inflation rate	2.50%

NOTE 12 – CONTINGENCIES AND COMMITMENTS

Grant Programs

The District receives funding from federal, state and local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if, based on the grantor's review, the funds are considered not to have been used for the intended purpose, the grantor may request a refund of monies advanced or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 13 – INSURANCE AND RELATED ACTIVITIES

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, etc. Each of these risk areas is covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated including workers' compensation insurance.

NOTE 14 – RISK MANAGEMENT AND LITIGATION

The District is exposed to various risks of loss of assets associated with the risks related to torts; theft of, damage to and destruction of assets; fire, personal liability, vehicular accidents; errors and omissions; injuries to employees; fiduciary responsibility; and natural disaster. Each of these risk areas are covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated which include workers' compensation insurance.

Contributions to the Workers' Compensation Fund were based on premium rates established by such fund in conjunction with the excess insurance carrier, subject to claims experience modifications and a group discount amount.

The District purchases unemployment insurance through Kentucky School Boards' Association; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

From time to time, the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecast with certainty, it is the opinion of management and legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial statements.

NOTE 15 – COBRA

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the school district at risk for a substantial loss.

The District has notified all terminated employees of available continuing insurance coverage as mandated by COBRA.

NOTE 16 – INTERFUND RECEIVABLES AND PAYABLES

There were no interfund receivables or payables at June 30, 2025.

NOTE 17 – JOINT VENTURE

On February 11, 2010 the District entered into a joint venture agreement with the Murray Independent School District. The agreement stipulates that Murray Independent School District fund the joint venture from SEEK monies released by Calloway County School District for nonresident pupils. These funds were used to build and operate a 21st Century, state of the art, Career Technical Center for the benefit of students from both districts.

The operations are controlled by a Board, which is comprised of representatives from each District. The District's interest in this joint venture is accounted for using the equity method. The District's equity interest represents its explicit, measurable right to the net present or future resources of the joint venture. Under this method, the District records its share of the joint venture's net income or loss for each period. For additional financial information regarding the joint venture, contact Murray Independent School District (270.753.4363) or by mail at 208 South 13th Street, Murray, KY 42071.

NOTE 18 – RECENT ACCOUNTING PRONOUNCEMENTS

Implemented

GASB Statement No. 101, *Compensated Absences* – The Board adopted this standard effective July 1, 2024. The standard modifies the recognition and measurement of compensated absences. The adoption did not result in material change to the financial position or results of operations.

GASB Statement No. 102, *Certain Risk Disclosures* – Effective for fiscal years beginning after June 15, 2024. The standard requires disclosure of concentration and constraints that could impact a government's financial position or operations within 12 months of the financial statement date.

Recent pronouncements

The following standards were issues but not yet effective as of June 30, 2025. The Board is currently evaluating the impact of these standards.

GASB Statement No. 103, *Financial Reporting Model Improvements* – Effective for fiscal years beginning after June 15, 2025. The standard will significantly revise the presentation of governmental financial statements.

GASB Statement No. 104, *Disclosure of Certain Capital Assets* – Effective for fiscal years beginning after June 15, 2025. The District is evaluating the impact on disclosures related to infrastructure and intangible assets.

NOTE 19 – CERTAIN RISK DISCLOSURES

GASB Statement No. 102, *Certain Risk Disclosures*, requires disclosure of concentrations and constraints that could significantly affect a government's financial position or operations within twelve months after the financial statement date. Management evaluated protentional risks and identified the following:

Revenue Concentration – A substantial portion of the District's funding is dependent on state appropriations, supplemented by federal grants and local tax revenues. Because of this reliance, changes in sate or federal levels could pose a significant risk to the District's financial stability and operations.

Deposit Concentration – The District maintains substantially all cash and investment balances with a single qualified public depository. All balances are insured or collateralized in accordance with KRS 41.240, and management monitors collateral coverage on an ongoing basis.

Statutory Constrains – The District's ability to increase local property-tax rates is limited by Kentucky's "4 Percent" statute and House Bill 44, which restrict revenue growth without the possibility of recall by voters. These provisions may limit future local revenue capacity.

Management is not aware of any other concentrations or constraints expected to have a material effect on the District's financial position or operations within twelve months of June 30, 2025.

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGET AND ACTUAL
JUNE 30, 2025**

NOTE 1 – BUDGETARY INFORMATION

The District's budgetary process accounts for transactions on a basis other than Generally Accepted Accounting Procedures (GAAP). The major differences between the budgetary accounting method and GAAP are:

Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

In accordance with state law, the District prepares a general school budget based upon the amount of revenue to be raised by local taxation, including the rate of levy and from estimates of other Local, State and Federal revenues. The budget contains estimated expenditures for current expenses, debt service, capital outlay and other necessary expenses. The budget must be approved by the Board.

The District must formally and publicly examine estimated revenues and expenditures for the subsequent fiscal year by January 31 of each calendar year.

The District must prepare an annual allocation to schools by March 1 of each year for the following fiscal year. This allocation must include the amount for certified and classified staff based on the District's staffing policy and the amount for instructional supplies, materials, travel and equipment.

The District must adopt a tentative working budget for the subsequent fiscal year by May 30 of each year. This budget must contain a 2.00% reserve.

Finally, the District must adopt a final working budget and submit it to the Kentucky Department of Education by September 30 of the current fiscal year.

The Board has the ability to amend the working budget. The working budget was amended during the year.

Expenditures for the General Fund were within the total final appropriations for the year ended June 30, 2025.

Expenditures exceed appropriations in the Special Revenue Fund by \$1,245,678. These excess expenditures were financed by revenues greater than those originally anticipated in that fund.

The Board did not adopt a legally binding annual budget for the Construction Fund. Accordingly, a budgetary comparison schedule for this fund is not presented.

Changes in benefit terms

The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

2024: No changes in benefit terms.
2023: No changes in benefit terms.
2022: No changes in benefit terms.
2021: No changes in benefit terms.
2020: No changes in benefit terms.
2019: No changes in benefit terms.
2018: No changes in benefit terms.
2017: No changes in benefit terms.
2016: No changes in benefit terms.
2015: No changes in benefit terms.

Changes in assumptions

The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

2024: No changes.

2023: The CERS board of Trustees adopted new actuarial assumptions on May 9, 2023 and included a change in the investment return assumption from 6.25% to 6.50%. The KRS Board of Trustees adopted new actuarial assumptions on June 5, 2023. These assumptions are documented in the report titled "2022 Actuarial Experience Study for the Period Ending June 30, 2022". The total pension liability as of June 30, 2023, is determined using these updated assumptions.

2022: No changes.

2021: During the 2021 legislative session, Senate Bill 169 was enacted which increased disability benefits for certain qualifying members who became "totally and permanently disabled" in the line of duty or as a result of a duty-related disability. The total pension liability as of June 30, 2021 is determined using these updated benefit provisions.

2020: During the legislative session, Senate Bill 249 was enacted which changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not affect the calculation of total pension liability and only affects the calculation of the contribution rates that would be payable starting July 1, 2020. Additionally, House Bill 271 was enacted with removed provisions that reduce the monthly payment to a surviving spouse of a member whose death was due to a duty-related injury upon remarriage of the spouse. It also increased benefits for a very small number of beneficiaries. This did not have a material (or measurable) impact on the liability of the plans and therefore, no adjustment was made to the total pension liability to reflect this legislation.

COUNTY EMPLOYEES RETIREMENT SYSTEM**

Changes in assumptions, continued

2019: There have been no changes in plan provisions since June 30, 2018. However, the Board of Trustees has adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018". The total pension liability as of June 30, 2019 is determined using these updated assumptions.

2018: During the 2018 legislative session, House Bill 185 was enacted, which updated the benefit provisions for active members who die in the line of duty. Benefits paid to the spouses of deceased members have been increased from 25% of the member's final rate of pay to 75% of the member's average pay. If the member does not have a surviving spouse, benefits paid to surviving dependent children have been increased from 10% of the member's final pay rate to 50% of average pay for one child, 65% of average pay for two children, or 75% of average pay for three children. The total pension liability as of June 30, 2018 is determined using these updated benefit provisions.

2017: There was no legislation enacted during the 2017 legislative session that had a material change in benefit provisions for CERS. However, subsequent to the actual valuation date (June 30, 2016), but prior to the measurement date (June 30, 2017), the KRS Board of Trustees adopted updated actuarial assumptions which will be used in performing the actuarial valuation as of June 30, 2017. Specifically, the total pension liability as of June 30, 2017 is determined using a 2.30% price inflation assumption for the non-hazardous system and the assumed rate of return is 6.25% for the non-hazardous system.

2016: There was no legislation enacted during the 2017 legislative session that had a material change in benefit provisions for CERS. However, subsequent to the actual valuation date (June 30, 2016), but prior to the measurement date (June 30, 2017), the KRS Board of Trustees adopted updated actuarial assumptions which will be used in performing the actuarial valuation as of June 30, 2017. Specifically, the total pension liability as of June 30, 2017 is determined using a 2.30% price inflation assumption for the non-hazardous system and the assumed rate of return is 6.25% for the non-hazardous system.

2015: No changes in assumptions.

2023: No changes in assumptions.

2022: No changes in assumptions.

2021: In the 2020 experience study, rates of withdrawal, retirement, disability, mortality and rates of salary increases were adjusted to reflect actual experience more closely. The expectation of mortality was changed to the PUB2010 Mortality Tables (Teachers Benefit-Weighted) projected generationally with MP-2020 with various set-forwards, setbacks and adjustments for each of the groups; service retirees, contingent annuitants, disabled retirees and actives. The assumed long-term investment rate of return was changed from 7.50% to 7.10% and the price inflation assumption was lowered from 3.00% to 2.50%. In addition, the calculation of the Single Equivalent Interest Rate (SEIR) results in an assumption change from 7.50% to 7.10%.

2020: No changes in assumptions.

2019: No changes in assumptions.

2018: The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumptions change from 4.49% to 7.50%.

2017: The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 4.20% to 4.49%.

In the 2016 valuation, rates of withdrawal, retirement, disability and mortality were adjusted to more closely reflect actual experience. In the 2016 valuation, the Assumed Salary Scale, Price Inflation, and Wage Inflation were adjusted to reflect a decrease. In addition, the calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 4.88% to 4.20%.

2015: The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 5.23% to 4.88%.

2014: The calculation of the Single Equivalent Interest Rate (SEIR) resulted in an assumption change from 5.16% to 5.23%.

Notes to Schedule

Information prior to 2018 was unavailable. Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30 listed below:

Changes of Benefit Terms

2024: No changes of benefit terms.

2023: No changes of benefit terms.

2022: No changes of benefit terms.

2021: No changes of benefit terms.

2020: No changes of benefit terms.

2019: No changes of benefit terms.

2018: No changes of benefit terms (other than the blended discount rate used to calculate the total OPEB liability).

Changes in assumptions

2024: The discount rate used to calculate the total OPEB liability increased from 5.93% to 5.99% for non-hazardous and 5.97% to 6.02% for the hazardous plan.

2023: The CERS Board of Trustees adopted new actuarial assumptions on May 9, 2023. The KRS Board of Trustees adopted new actuarial assumptions on June 5, 2023. These assumptions are documented in the report titled “2022 Actuarial Experiences Study for the Period Ending June 30, 2022”. Additionally, the single discount rates used to calculate the total OPEB liability within each plan changed since the prior year. The total OPEB liability as of June 30, 2023, is determined using these updated assumptions.

2022: The initial healthcare trend rate for pre-65 was changed from 6.30% to 6.20%. The initial healthcare trend rate for post-65 was changed from 6.30% to 9.00%.

2021: The single discount rates used to calculate the total OPEB liability within the plan changed since the prior year. Additional information regarding the single discount rates is provided in Note 12 of the financial statements. During the 2021 legislative session, Senate Bill 169 was enacted which increased disability benefits for certain qualifying members who become “totally and permanently disabled” in the line of duty or as a result of a duty-related disability. The total OPEB liability as of June 30, 2021 is determined using these updated benefit provisions.

2020: During the 2020 legislative session, Senate Bill 249 was enacted which changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not impact the calculation of total OPEB liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020.

COUNTY EMPLOYEES RETIREMENT SYSTEM**

Changes in assumptions, continued

2019: There have been no changes in plan provisions since June 30, 2018. However, the Board of Trustees has adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018". The total OPEB liability as of June 30, 2019 is determined using these updated assumptions.

2018: During the 2018 legislative session, House Bill 185 was enacted, which updated the benefit provisions for active members who die in the line of duty. The system shall now pay 100% of the insurance premium for spouses and children of all active members who die in the line of duty. The total OPEB liability as of June 30, 2018 is determined using the updated benefit provisions.

2017: There was no legislation enacted during the 2017 legislative session that had a material change in benefit provisions for CERS. However, subsequent to the actual valuation date (June 30, 2016), but prior to the measurement date (June 30, 2017), the KRS Board of Trustees adopted updated actuarial assumptions which will be used in performing the actuarial valuation as of June 30, 2017. Specifically, the total OPEB liability as of June 30, 2017 is determined using a 2.30% price inflation assumption for the non-hazardous system and the assumed rate of return is 6.25%.

Notes to Schedule

Information prior to 2018 was unavailable. Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Medical Insurance Fund

Changes in benefit terms

2024: No changes in benefit terms.

2023: No changes in benefit terms.

2022: A new benefit term was added for members joining the System on and after January 1, 2022.

2021: No changes in benefit terms.

2020: No changes in benefit terms.

2019: No changes in benefit terms.

2018: No changes in benefit terms.

2017: With the passage of House Bill 471, the eligibility for non-single subsidies (NSS) for the KEHP-participating members who retired prior to July 1, 2010 is restored, but the State will only finance, via its KEHP "shared responsibility" contributions, the costs of the NSS related to the KEHP-participating members who retired on or after July 1, 2010.

Changes in assumptions

2024: The health care trend rates were updated to reflect future anticipated experience.

2023: The health care trend rates, as well as the TRS 4 retirement decrements, were updated to reflect future anticipated experience.

2022: The health care trend rates were updated to reflect future anticipated experience.

2021: In the 2020 experience study, rates of withdrawal, retirement, disability, mortality and salary increases were adjusted to reflect actual experience more closely. The expectation of mortality was changed to the Pub2010 Mortality Tables (Teachers Benefit-Weighted) projected generationally with MP-2020 with various set forwards, setbacks and adjustments for each of the groups: service retirees, contingent annuitants, disabled retirees and actives. The assumed long-term investment rate of return was changed from 8.00% to 7.10%. The price inflation assumption was lowered from 3.00% to 2.50%. The rates of member participation and spousal participation were adjusted to reflect actual experience more closely.

**CALLOWAY COUNTY SCHOOL DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal grant activity of Calloway County School District (District) under programs of the federal government for the year ended June 30, 2025. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are recognized on the accrual basis of accounting, consistent with the District's financial statements. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Pass-through entity identifying numbers are presented where available.

NOTE 3 – SUBRECIPIENTS

There were no subrecipients during the fiscal year.

NOTE 4 – INDIRECT COST RATE

Calloway County School District has not elected to use the 10-percent de minimus indirect rate allowed under the Uniform Guidance.

NOTE 5 – COMMODITIES

Nonmonetary assistance is reported in the Schedule at the fair market value of the USDA food commodities received and disbursed.

NOTE 6 – DUAL GUIDANCE FRAMEWORK

The Schedule includes federal awards subject to both the pre-2024 Uniform Guidance and the revised Uniform Guidance effective October 1, 2024. Compliance requirements tested were based on the applicable version for each award.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Kentucky State Committee
for School District Audits
Members of the Board of Education
Calloway County School District
Murray, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Independent Auditor's Contract*, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Calloway County School District (District), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 10, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of Calloway County School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material

weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. In addition, the results of our tests disclosed no material instances of noncompliance of specific state statutes or regulations identified in *Appendix II of the Independent Auditor's Contract – State Audit Requirements*.

We noted certain matters that we reported to management of Calloway County School District in a separate report dated December 10, 2025.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Kentucky State Committee
for School District Audits
Members of the Board of Education
Calloway County School District
Murray, Kentucky

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Calloway County School District's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2025. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant*

deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Members of the Board of Education
Calloway County School District
Murray, Kentucky

In planning and performing our audit of the financial statements of Calloway County School District (District) for the year ended June 30, 2025, we considered the District's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control.

During our audit, we did not identify any new matters that we consider to be deficiencies in internal control or opportunities for improving operating efficiencies. We performed a follow-up on the prior year comments noted in the previous year's report. Most of those matters have been resolved by the District. Any remaining items that continue to warrant attention are included in the accompanying memorandum. A separate report dated December 10, 2025 contains our report on the District's internal control. This letter does not affect our report dated December 10, 2025 on the financial statements of the District.

We will review the status of these comments during our next audit engagement. We have already discussed the comments and recommendations with various District personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters or to assist you in implementing the recommendations.

We performed a follow-up on the prior year findings with the status of these findings documented on page 117 of this year.

This report is intended solely for the information and use of management, the members of the Calloway County Board of Education, others within the District, the Kentucky Department of Education and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully,
