- 0920 Payments to Escrow Agents for Defeasance of Debt** (Used only with Fund 5100 and for Audit purposes it would be reported in other financing uses where applicable) Amounts paid for escrow agents are used when bonds are defeased which have a c date at some point in the future. For example, if the earliest available c date on a Bond Issue occurs 6 months from the closing date of the Refunding Bonds, proceeds will be remitted to the Escrow Agent for investment in secure short term Government Securities which are set to mature near the day the bonds are cable. Once the funds are placed into the Escrow account in sufficient amount, such that the principal plus interest earned on the Escrow investment is sufficient to pay off the bonds upon the c date the Prior bonds are considered economically defeased.
- 0925 Discount on the Issuance of Bonds** Amounts for the proceeds from that portion of the sale of bonds below their par value. The discount represents an adjustment of the interest rate and will be amortized using expenditure object account 0834. - 0930 Net Decreases in the Fair Value of Investments** Amounts for the losses recognized from investments or changes in the fair value of investments. Losses represent the cost or any other basis at the date of sale (or valuation) over sales value (or fair value). For financial reporting purposes, GASB Statement 31 requires that income, including changes in the fair value of investments, be reported as revenue in the operating statement. This account has been established for investment losses so that districts may report gains or losses separately as required in certain states (or where only credits may be reported for revenue codes and only debits for expenditure codes). However, account 1530 may be used to record investment gains or losses (reported as a contra revenue if permitted by the state). ((Used only with Function 2510.)
- 0931 Realized Losses on Investments** Amounts for the losses recognized from the sale of investments. Losses represent the excess of the cost or any other basis at the date of sale over sales value. For financial reporting purposes, the net of realized and unrealized investment gains and losses should be reported as a single line in the financial statements; however, this account and the following account may be used for internal tracking purposes. (Used only with Function 2510.)
- 0932 Unrealized Losses on Investments** Amounts for the losses recognized from changes in value of investments. Losses represent the excess of the cost or any other basis at the date of valuation over fair value. For financial reporting purposes, the net of realized and unrealized investment gains and losses should be reported as a single line in the financial statements; however, this account and the previous account may be used for internal tracking purposes. (Used only with Function 2510.)
- 0940 Losses on the Sale of Capital Assets.** Amounts that are the excess of book value of the capital assets sold over the amount received. This account is used in proprietary and fiduciary funds only and in the

0950 Special Items Amounts used to classify special items in accordance with Governmental Accounting Standards Board (GASB) Statement 34. Included are transactions or events within the control of the school district administration that are either unusual in nature or infrequent in occurrence. Some capital asset impairments, as defined by GASB Statement 42, may be reported as special items. In the governmental funds, these items should be separately captioned or disclosed.

0960 Extraordinary Items Amounts used to classify items in accordance with Accounting Principles Board (APB) Opinion No. 30 that are transactions or events that are both unusual in nature and infrequent in occurrence. For some districts, this includes significant costs related to a natural disaster caused by fire, flood, tornado, hurricane, or hailstorm or costs related to an environmental disaster. The service provider collects the tax based on the rate established by the local authority. The rate cannot exceed 3 percent. Effective July 2005, the administration, distribution, and compliance responsibilities of the utility gross receipts license tax transferred to the Department of Revenue. The service provider or Energy direct Pay (EDP) holder submits payment to the Department of Revenue with a breakdown of the tax collected by school district. The Department of Revenue captures the district information and the corresponding tax collections and distributes the amount to the appropriate school district in one monthly payment. The utility gross receipts license tax is administered under Chapter 160 of the Kentucky Revised Statutes.
