Name	Assignment Start	Assignment End	Access Start	Access End	Certification Level	District Assignment	Role
Primary Teacher Administrator, System							

Add staff based on their role:

Primary Teacher – Certified teacher who has been assigned the lead responsibility for the student’s learning in a subject/course. This person is the Teacher of Record. Schools should assign a primary teacher to every section.

Teacher – An individual who has been assigned the responsibility to provide additional services that support and increase a student’s learning and has access to the section’s grade book and attendance roster.

Section Staff – An individual who has been assigned the responsibility to provide additional services that support and increase a student’s learning, but does not have access to section’s grade book and attendance roster.

Data Standard Census (Staff Information)

Rev. 7/3/2023

Assignment Start and End date fields should remain blank unless staff members start working in the section after the first day of the first scheduled term, or stop working in the section before the last day of the last scheduled term.

Access to this section is controlled by Access Start and End dates. To end a user's access to this section, enter an Access End Date.

The screenshot shows a web form titled "Staff History Detail" with a sub-header "Primary Teacher". The form contains the following fields and options:

- Name:** "Teacher, Primary"
- District Assignment:** A dropdown menu.
- Assignment:** Two date pickers for "Start Date" and "End Date".
- Access to Section Dates:** Two radio buttons: "Unrestricted" (selected) and "Date Range".
- Comments:** A large text input area.
- Footer:** "- Modified by: Administrator, System 04/11/2018 10:23"

Below the main form is a section titled "Teacher Display Name on Section" with the instruction: "Making a change to the Teacher Display Name here will update the value on the Section tab." It contains two radio buttons: "Continue using the current Teacher Display Name from the Section tab: Teacher, Primary" (selected) and "Use a new Teacher Display Name on the Section tab:" followed by a text input field containing "Teacher, Primary".

Assignment – Dates the instructor began and ended the teaching assignment on the course section. In most situations, these fields will be left blank. They are only populated if the primary teacher, teacher or section staff are assigned to the section after the first day of the first schedule term, or if the primary teacher, teacher or section staff are no longer assigned to the section before the end of the last scheduled term.

Access to Section Dates – Entered dates determine when a primary teacher or teacher can access course information in Campus Instruction (Grade Book, Planner, etc.). Unrestricted - Allows access to Campus Instruction tools without restriction for the duration of the calendar year. Date Range - Access to Campus Instruction tools is limited to the time between the entered dates.

Teacher Display Name on Section

Continue using the current Teacher Display Name from the section tab. This selection will continue to display the primary teacher's name as it is currently entered.

Use a new Teacher Display Name on the Section tab. Use this option when changing the primary teacher. When this option is selected, the person making the change can enter in the display name. This is helpful in elementary schools where the primary teacher name is displayed along with breakout section teachers, like music teacher or the art teacher.

Long Term Substitutes

When a long-term substitute is covering a vacant position, the primary teacher should be a vacancy placeholder staff account (see Section B for vacancy placeholder EPSB IDs). If district guidance allows, adding the substitute as a Teacher

Data Standard Census (Staff Information)

Rev. 7/3/2023

will allow the substitute to post attendance and update the gradebook. Access to section date should be used to prevent continues access to these tools after a permanent teacher is hired.
