Subject: 2024-2025 Data Standards

Alternative Education Program District Contacts,

The Alternative Education Programs/ILPA Data Standards and the KECSAC Data Standards have been updated for the 2024-2025 school year. These documents provide instruction and requirements for data entry of students placed in a district-operated or state agency program. The standard also includes information on reports available track students in the programs. Updates to the standard include definition of long-term and requirements of an ILPA for long-term students. Onsite and offsite distinctions are also included in the data standard. The Guidance for Alternative Education Programs is also a valuable resource for outlining the requirements of AEPs.

Please share this information with the appropriate staff in the schools responsible for this data entry. Thank you!

Windy Spalding
