Subject: KSIS Alert: KECSAC Data Loss and Required Actions

KSIS Contact,

Infinite Campus has completed the restoration of the KECSAC tool and associated student records in the district databases. KDE testing indicates that the majority of KECSAC records have been successfully restored as of July 7, 2026. Any records needing to be added since this date, can now be entered by school staff.

To ensure all data and security settings were fully restored in your district, please complete the following verification steps for any school in the district classified as an A6, KECSAC facility:

1. Review for Missing KECSAC Records

Districts can utilize the [Neglected and Delinquent Eligibility Report](#) to identify any students who may be missing a corresponding KECSAC record. This report shows all students enrolled in the school with an indication if the student has an active KECSAC student record. This is a relatively new report in IC, so appropriate staff may need to request access through the District KSIS Point of Contact.

The [KECSAC Membership Report](#) was not affected by the issue and can be utilized to review student records as well.

2. Verify KECSAC Tool Rights

Tool rights associated with the KECSAC tool have been restored. Districts should verify appropriate staff have the rights to the KECSAC tool to enter student level KECSAC data.

Reference the [KECSAC Data Standard](#) for data entry instruction. KSIS administrators may find the **User Management | Reports | Tool & Calendar Right Access** tool helpful to review what user groups and individuals have access to the KECSAC tool.

Please reach out to [Windy Spalding](#) if you discover remaining issues in the IC district sites.

Thank you for your patience and cooperation while this matter was being resolved.
