Subject: KSIS Notification: Campus Learning and Online Registration Funding

KDE received unexpected but good news on Friday regarding the availability of funding for ARP ESSER projects impacted by the Secretary's March 28, 2025, rescission decision. ESSER funded projects previously approved but later rescinded can now move forward. This means that KDE can fund one more year of Infinite Campus On-Line Registration (OLR) and Campus Learning (CL) as originally planned. KDE will use ESSER funding to pay through February 2026, with another funding source being used for the last 4 months of the 2025-2026 school year.

At this point, districts still have access to these tools. Campus delayed the plans to turn off CL and/or OLR on June 30th to provide districts that had not opted to continue to use additional time to reconsider if availability of funding was the reason for discontinuing use. KDE is paying for all districts to use OLR but only those that opt in to use Campus Learning.

Next steps are dependent on district decisions for ongoing use.

- If your district opted to use CL and/or OLR for the 2025-2026 school year, they don't need to do anything. Any OLR/CL invoice that has already been received, should not be processed for payment.
- If a district did not opt in to use CL and/or OLR, this decision can be revisited now that state funding is available. Submit a Campus ticket if you chose to change plans and opt in to use CL and/or OLR. Tickets only need to be submitted if you advised Infinite Campus you would not be using either of these products going forward. If you are not sure, contact [Lisa DeGaris](#).
- Districts that don't opt-in to use Campus Learning will have the tool turned off for their district by mid-July.

KDE plans to continue to pursue state funding through an additional budget request but without that additional funding, KDE cannot commit to funding beyond the 2025-2026 school year.

We appreciate your patience as we have navigated the availability of ESSER funds to support districts.
