Subject: KSIS Notification: Emergency RX Release of Campus-2611.11 Planned for April 17

KSIS Contact,

Please be advised that an emergency Rx release of **Campus-2611.11** is planned for **Friday, April 17, at 6:00 p.m., (Central)/ 7:00 p.m. (Eastern)**. This Rx release is currently in testing. If issues are identified, we will delay the update. Infinite Campus will be temporarily unavailable during the update process. Please contact Lisa Keeter or DeDe Conner if you have any questions or concerns about the update schedule.

This emergency update is needed to correct issues with Course Planner.

Alternative Requests in Course Planner Fix (SIS-197957)

An issue was resolved in **Course Planner** where students' *alternative* course requests were being included alongside required and elective requests. This caused the system to overestimate the number of sections needed when building the master schedule in **Scheduling Board**. The fix ensures only required and elective requests are counted when determining section demand.

Please share this information with individuals in your district or office as appropriate.

Thank you!

Lisa Keeter
