Subject: Homeless End Date

Good afternoon,

KDE is conducting data analysis of the 2023-2024 Homeless data and many records in the state indicate an invalid end date. All current year homeless records should have an end date of **6/30/2024**. The end date is no longer pre-populated when a record is created. A ticket with IC has been opened to address this issue. In the meantime, districts can identify these records by generating the *QA Homeless* detail report available via Reporting | KDE Reports. The report will output into Excel and the user can filter on the *Homeless End Date* column to obtain records that do not have an end date of 6/30/2024.

Please update these records as soon as possible as this affects homeless data within student records transfer.

Thank you,

Margalee Turner Conlee
