Subject: KSIS Notification: Measles Tracking In Infinite Campus

KSIS Point of Contact:

FYI – this message below was shared with DPPs and will also go to District Health Coordinators.

From: Devine, Ronda - Division of District Support
Sent: Tuesday, October 20, 2026 11:14 AM

All,
There have been a few questions from DPP's regarding measles and there has been an increase in cases nationwide. The Division of District Support wanted to remind districts of available tracking in Infinite Campus for these cases.

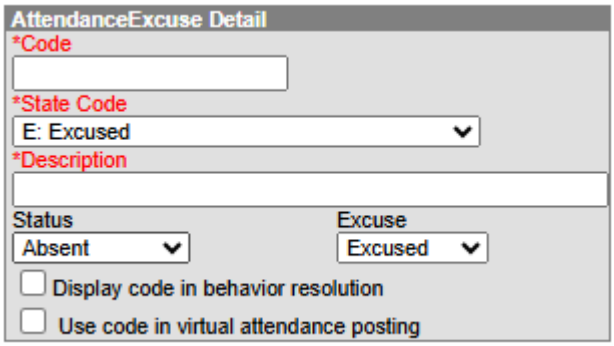

If a student has been diagnosed with measles, the student's 'Communicable Disease' tab should be completed, as shown below. This will allow districts and KDE state edition users to pull counts of measles in school age, public school students.

Path: Student Information > Health > Communicable Disease
Required Fields:
Status Date – Date record entered
Status Time – Date recorded entered
Report Date – Date disease diagnosed
Communicable Disease - B05.9: Measles
Health Department Notified: CHECK

Students who have been quarantined due to measles may have a 21-day quarantine period. Home/Hospital procedures can be followed to place these students on home/hospital instruction during the quarantine period with proper home hospital paperwork. This will ensure instruction and funding to continue without impacting chronic absenteeism.

Also, if a district chooses to create a local absence code for students who are absent and not on home hospital, the district can create a local absence code that is mapped to State Code of E:Excused, if desired.

Please reach out to Marissa Hancock by email at Marissa.hancock@education.ky.gov or Ronda Devine by email at ronda.devine@education.ky.gov with tracking questions. You can also reach out to the School Health Branch at School Health for any additional concerns.

Thank You,
Ronda
