Subject: KSIS Notification: New Campus Imports for Mosaic Districts – Action Required

New Campus Imports for Mosaic Districts – Action Required

KDE has worked with Mosaic to create a daily automated direct certification process. Mosaic will automatically attempt to match and identify students daily that can be directly certified and update their eligibility records without district intervention. Mosaic districts no longer need to manually import direct certification data into either system.

KDE has also worked with Mosaic and Infinite Campus to streamline eligibility data into Infinite Campus. All districts using Mosaic need to complete the *Setup Mosaic Meal Eligibility Mapping* and *Setup Mosaic Meal Eligibility Scheduled Import* steps in the attached guide to create a daily import to Infinite Campus FRAM. Districts that utilize MySchoolApps for Household Income Forms (HIFs) will also need to complete the *Setup My School App (HIF) Mapping* and *Setup My School App (HIF) Schedule Import* steps. Please note that the sample files referenced in the instructions are attached to this email and should be saved locally before following the guide. Infinite Campus published the standard import mappings on July 26 with the Campus.2327 release. The Mosaic Start of Year service appointment creates the files needed to support the daily automations.

The Infinite Campus administrator and Food Service Coordinator will need to work together to complete the setup. Please contact Heartland and Infinite Campus for support.
