KSIS Contacts:
Reminder – Infinite Campus release Campus.2319 will go into production tomorrow night (6/14). Details for the release were provided in the previous notification below.

- **New -** The Assessment Results KSA report provides the prior year's Kentucky Summative Assessment (KSA) scores to help schools review data for students enrolled in the selected school year. The detail report provides individual student scores on all KSA subjects administered the prior year including students who have transferred from other districts. The aggregate report provides results by subject and includes the total enrollment, number of students tested and average score by subgroup. 2023 KSA data should be available in the fall.
- **New -** The Preschool Child Outcome Summary report is to provide a list of preschool students and the completion status of each student's Child Outcome Summary (COS) form by COS period for data quality review.

Please help to promote these two new reports and ensure the appropriate individuals have tool rights needed to access. THANKS!
