Subject: KSIS Notification: Reminder Release of Campus.2323 Scheduled for July 12

KSIS Contacts:

Reminder – Infinite Campus release Campus.2323 will go into production tomorrow night (7/12). Details for the release were provided in the previous notification below. Assigning tool rights and placing new reports with the custom tool placement editor (new look) will ensure KDE reports are available to those needing access.

- **New - [Home Hospital Validation](#)** report will assist districts in verifying accuracy of Home Hospital data entry. Two reporting options are available. The Home Hospital Student detail provides detailed information of students that have a Home Hospital Attendance Group assigned. The Home Hospital Attendance errors provides a list of students that have a Home Hospital attendance event outside of a Home Hospital Attendance Group date range.
- **[SFTP Deliver Mode Change](#)** – An updated SFTP Delivery Mode has been added to the following tools:
 - Data Extract utility
 - FRAM Scheduled Import/Extract
 - Data Import Wizard

This update ensures modern key exchange algorithms are supported which is especially useful for customers using servers which only support these newer algorithms.

The old SFTP Delivery Mode still exists in the tool but has been renamed to SFTP Legacy (being deprecated). Existing configurations using this old delivery mode will continue to work but users should transition over to the new SFTP Delivery Mode option once Campus.2323 is in production.

Subject: KSIS Notification: Release of Campus.2323 Scheduled for July 12

KSIS Contact,

Please be advised that KDE has confirmed the release of **Campus.2323** to start **Wednesday, July 12, at 7:00 p.m., (Central)/ 8:00 p.m. (Eastern)**. Infinite Campus will be temporarily unavailable during the update process. Please contact Lisa Keeter or DeDe Conner if you have any questions or concerns about the update schedule.

The Kentucky release notes are attached. [For the full manifest of changes in the Campus.2323 release, click here](#). A [recorded training session for the general updates on the Campus.2323 release is available here](#) (Campus ID required).

Infinite Campus will be removing all NOLOCK (and its equivalent, READUNCOMMITTED) query hints and READ UNCOMMITTED settings from the Infinite Campus code base with Campus.2331. Districts must be prepared to remove any NOLOCK (and READUNCOMMITTED) query hints from your own custom SQL code. Campus.2331 is scheduled for release on Wednesday, September 13. The KDE will be prepared to update any KY State Reports and statewide processes. A [Frequently Asked Questions](#) document has been published for more information on this topic.

Please share this information with individuals in your district or office as appropriate.

Thank you!

Infinite Campus Release Highlights – Campus.2323

Kentucky Specific

Item	Description
Custom Gifted Form Batch Print	An issue preventing the Custom Gifted Form Batch Print report from being generated in the New Look has been resolved
Course Tab Updates	A Teaching Method option (20: Blended Learning) has been added.
Career Readiness Records Transfer	Career Readiness Records can now be included when transferring student records from one school to another. Now that DIS/Sync to State has been implemented, State users can see a read only version of records if the data has been synced.
EL Extract	Critical Error text has been corrected for the English Learners (EL) Extract (Kentucky) .
Special Ed Ad Hoc Fixes	With the release of Campus.2319 (May 2023), the Kentucky Special Ed Documents were completely rewritten with the new look of Campus. This is a follow up enhancement to address several discrepancies with these documents and their associated Ad Hoc fields.
Gifted & Talented	The GSSP Portal Settings Report has been moved in Classic Look into the Reports folder in System Administration Portal.

Core Product

Item	Description
Campus Learning – Signing Into Google Drive	The workflow for using Google Drive files in assignments has been updated to no longer require users to sign in as often to continue to use Google Drive.
Data Utilities – Updated SFTP Delivery Mode Added to Extract Tooling	An updated SFTP Delivery Mode has been added to the following tools: <ul style="list-style-type: none">• Data Extract Utility• FRAM Scheduled Import/Extract• SLDS Submission Scheduling (Vermont Only)• Data Import Wizard This update ensures modern key exchange algorithms are supported which is especially useful for customers using servers which only support these newer algorithms.
Data Utilities – Updated to Provide User-Friendly Error Messages	Error messages in the Data Extract Utility have been updated to be more informative and user-friendly.

Item	Description
FRAM – Online Application Enhancements	The Meal Benefits application in the Parent Portal now has an updated user interface and bugs fixed. A new e-signature feature has replaced the previous PIN. Review the FRAM Online Application Checklist for the 23-24 School Year for tasks that must be completed to fully utilized the improved features.
FRAM Preferences Interface Enhancement	The Preferences tools of FRAM have received a new user interface. These Preference tools can now all be found under FRAM Preferences. The following tabs will now be available: <ul style="list-style-type: none"> • Year Preferences tab - This is the renamed Permission Preferences tab. All fields that are tied to a specific school year will now be available in this tab. This includes the Default Expiration Date as well as the Permissions. • Application Preferences tab - This includes the general Application Preferences that relate to default values for letter configuration and settings for Meal Benefits and Educational Benefits application processing. • Verification Preferences tab - This includes Verification Preferences used to set default letter configurations for the verification process.
Messenger – Sent Message Log Update to Include Security-Related Messages	Five rules have been added to the base/non-paid version of Validation Rules: <ul style="list-style-type: none"> • Active students not in a household • Households with more than 1 primary mailing address • Students who have no birth date • Students who have the same student number Transcripts with no GPA value
Messenger – In-Progress Message Enhancement for Messenger 2.0	By default, the OneRoster cache has been updated to refresh between 10pm and midnight local time, initiated at 10:10pm. An option has been added to the Settings menu in Digital Learning Applications Configuration allowing users to set a custom OneRoster Daily Cache Refresh Time. Off-peak hours are recommended.
New Look – Search Box State Box to Remain when Switching Search Types	Search tooling within the New Look of Infinite Campus has been updated to preserve the search term entered in the search field when switching between search types.
New Look – Inactive Status now Displayed for Course Master Search Results	Course Master search results now display a text of (Inactive) next to the name of inactive Course Master records.
New Look – Search Results Page Controls Moved to Top of Results	Page controls (used for moving to additional pages of search results) has been moved to the top of the search results window.
Scheduling – Staff Planner and Course Planner Updates	Additional updates are now available for Staff Planner and Course Planner .
Scheduling – Course/Section Setup Staff Tracking	Users may now track the amount of instruction time for all staff types in a section. Time may be tracked in minutes or a percentage of time through the Staff History tab.
