Subject: KSIS Notification: Release of Campus.2351 Scheduled for January 10

KSIS Contacts:

Reminder – Infinite Campus release Campus.2351 will go into production tonight (1/10). Details for the release were provided in the previous notification below.

Update - This release turns off a performance feature for OneRoster that has been causing sync issues with certain vendors including Clever.

Subject: KSIS Notification: Release of Campus.2351 Scheduled for January 10

KSIS Contact,

Please be advised that KDE has confirmed the release of **Campus.2351** to start **Wednesday, January 10 at 7:00 p.m., (Central)/ 8:00 p.m. (Eastern)**. Infinite Campus will be temporarily unavailable during the update process. Please contact Lisa Keeter or DeDe Conner if you have any questions or concerns about the update schedule.

See the Kentucky release notes for state specific items and Campus.2351 for the full manifest of changes. Check Campus Passport for the *Campus.2351 Release Highlights* course, which should be available soon.

Please share this information with individuals in your district or office as appropriate.

Thank you!

Infinite Campus Release Highlights – Campus.2351
Kentucky Specific

Item	Description
Special Ed IEP	The Postsecondary goals entered into the IEP no longer display in the Progress Report.

Core Product

Item	Description
Assessment Center	Assessment Center has been enhanced to include score import functionality.
Campus Instruction	The Section Summary and Student Summary reports have been updated so that when generating a report, users have the option of selecting only tasks/standards without selecting any categories and assignments within them.
DIS/DIF	Raw Unweighted GPA will sync from District Editions to State Editions to allow for analysis at the state.
Health	Medication Strength is now available under the Medications area for Ad hoc reporting. The Doses Submitted value on the Medications tool was auto populating a zero instead of a blank, this issue has been fixed.
OneRoster	The Messenger 2.0 Template side panel would stay open after deleting a template and, if the template side panel was re-opened, the side panel would load indefinitely. This has been corrected.
One Roster	Implementation of OneRoster 1.1 has also been updated to allow vendors to return assignments as already aligned to default categories. Logic has been updated for determining the expiration time of database locks as well as to cache whether a district has Campus Learning license.
Student Information Grades Tool	The Grades tool has been updated to improve usability, more closely match Campus Student and Campus Parent, and provide additional assignment and grade data. Additional changes have also been made to which GPAs are displayed in the Grades tool and in Campus Student and Campus Parent. Visit Portal Display Options for further information and updates.
