Cc: Spalding, Windy - Office of Continuous Improvement and Support
Subject: School Title I Status

District Title I Coordinators,

The 2023-2024 Title I status for each school in Infinite Campus (IC) must be updated to match the Title I status submitted on the district 2023-2024 Consolidated Application in the Grant Management Application and Planning (GMAP) system. Reference the [Title I Data Standards, Section A](#) to verify and update school Title I status in Infinite Campus if applicable.

In addition, schools designated as a Title I Targeted Assistance School (TAS) must complete a record on the student Title I Services tab in IC for each student receiving Title I services during the current school year. Reference the [Title I Data Standards, Section B](#) to complete student records for Title I services received in these specific programs. Keep in mind, this step is not required for schools designated as a School-wide Program.

Data for the 2023-2024 school year will be extracted from the Infinite Campus reporting warehouse on July 1. This data is used for state and federal reporting and funding purposes. In addition, the school's Title I status will populate on the [School Report Card](#).

Please contact [Margalee Conlee](#) for any questions or concerns, thank you!

Margalee Turner Conlee
