

School Report Card Collection Tool Opens Wednesday, Sept. 18

The School Report Card (SRC) Collection Data tool is being released to districts on Wednesday, Sept. 18.

With this release, schools can:

1. Submit collection data for the School Profile Report and other required collector items; and
2. Download the School Profile Report to collect signatures of school-based decision-making council members, principals and superintendents.

Districts will also be able to monitor collection progress and enter the superintendent's message. The access link and additional details will be sent to district assessment coordinators (DACs) and SRC contacts Wednesday morning.

The AnLar team will provide live training to school and district users on Sept. 18 from 9 - 10:30 a.m. ET. This training will be recorded for later viewing by any users that cannot attend. There will also be office hours available to provide school and district users with an opportunity to ask questions about functionality. Time will be available Wednesday – Friday, 11 a.m. - 2 p.m. ET. Zoom links for the live training and office hours will be shared with district assessment coordinators and school report card contacts on Wednesday morning. Training documentation in the form of quick reference guides will also be available for use by school and district users.

Previous communications and resources are available on the [School Report Card Suite Resources webpage](#).
