School Report Card Update No. 11: SRC Timeline Extended

The timeline to complete work for the initial release of the School Report Card (SRC) has been extended to Oct. 1. Initially, the School Report Card Portal was scheduled to close on Sept. 24. This delay is to provide districts with additional time to complete this work. The initial public release is now scheduled for Oct. 15.

Currently, more than half of our schools have completed entry of their collection data; however, less than one-third of districts have approved open domains. You can check the status of your district's domain-level approvals within the portal or using the SRC Approval Status Report available on the SRC Resources webpage. Oct. 1 is the statutory requirement for having the School Profile Report complete with signatures and available in the local board office. That date has not changed.

The Kentucky Department of Education's Office of Assessment and Accountability is communicating with district assessment coordinators on the availability of academic achievement and accountability data. Quality Control day is tentatively scheduled for Oct. 23. Public release of the School Report Card with all data is scheduled for mid-to-late November.

Known outstanding issue(s):
- The school-level view of the superintendent message is not currently displaying data.

The SRC Resources webpage serves as the central repository for communications and resources. The SRC timeline, resources and all SRC communications are posted to this webpage.
