PROGRAM AMENDMENT

SCHOOL IMPROVEMENT GRANTS

District Name: Metcalfe County

School Name: Metcalfe County High School

Person Submitting Amendment: Clint Graham

Reviewer: Tara Rodriguez

Date Revision Approved: August 1, 2019

Sections	(Amend)Yes or No	Description data supporting amendment and strategies to be included.
Section 1: Commitment to Serve • Assessment data • Non-cognitive data • Causes and contributing factors • Strategy selection		
Section 2: Intervention Model (**Tier I and Tier II**)		
Section 3: Actions • Technology • Family involvement • Personnel assignments • Redirected funds • PD • Resources • External support • Review policies • Changes in policies/practices • Sustain reform		Metcalfe County would like to move $11,275 from object code 0110 (we didn't need all the funds allocated in code 0110 because salaries were less than projected) to object code 0643 ($975) and 0735 ($10,300) to cover the Mastery Prep and Mosby Nursing books. MasteryPrep - MasteryPrep is a software that helps increase learning schoolwide. We plan to use this learning tool throughout every classroom. The main goal is to increase learning by using the tools provided by MasteryPrep. Teachers will be held accountable in making sure materials are being used correctly through guided planning to ensure comprehension and knowledge. This will be a systematic approach schoolwide when implementing materials in an innovative way. This will help our needs assessment and CSIP goals because when students are engaged in their lessons and learning has increased it will natural help scores increase over time. The MasteryPrep program is all core content subjects so it is well rounded to give our students a wealth of opportunity and options within learning. The cost is $15,000.

		Mosby's Nursing Books - Mosby's Textbook for long term care is a text and workbook for students. We would like to order 15 books @ $69.00 apiece. The ISBN #9780323676533. Mosby's Textbook for Long-Term Care Nursing Assistants clearly and comprehensively addresses current responsibilities of the nursing assistant working in a long-term care setting. This text addresses the needs of learners of all levels that will help students at MCHS reach their dream in the medical field. There are more than 100 procedures that provide clear instructions for completing skills in manageable segments for easier learning. The resources contains over 25 animated procedures with exercises and an audio glossary to assist the multi-modal learner. This text will help our instructors guide our students and help them to become medical professionals. Odysseyware - Odysseyware is an online curriculum that we plan to use at MCHS to provide more pathways and options when taking classes. We plan on purchasing 10 licenses @ $600 apiece. Students work at their own pace when using Odysseyware. The system generates assignment due dates, but students can work ahead as they are ready to do so. If they need more time for an activity, they can take the time they need. Due dates are guidelines to ensure timely completion and do not hinder student pace. Odysseyware provides many opportunities for teachers to see student work. There are teacher-graded questions in every lesson. Also, if a student needs help or has a question, they can message the teacher from the page on which they are working. When the teacher receives the message, they can see exactly on what the student is working and where they are struggling or need help. This efficient process keeps the student moving forward and keeps learning authentic. Teachers have a separate log in. They can see student progress and grades and print reports as needed. This type of program will help our students that are work ready, career ready, and work extremely hard to graduate high school. XL-Pearson Math - Pearson MathXL is designed with a single purpose in mind: to improve the results of all higher education students, one

		student at a time. We plan to use this online software for specific math classes to provide a strong foundation within the course. This software will help explain, step by step, the process of the content provided. It will act as another tutor helping our students reach success. Pearson MathXL creates online learning experiences that are truly personalized and continuously adaptive. MathXL reacts to how students are actually performing, offering data-driven guidance that helps them better absorb course material and understand difficult concepts. This software will help guide, lead, and motivate our students. MCHS plans to purchase 3 packs as one pack has enough access codes for 25 students. Each pack of 25 is $412.37 for a total of 1237.41 for 75 students.
