

# IC Insights: A Data Visualization Tool

The Insights module within Infinite Campus (IC) offers a variety of customizable data visualization tools, allowing users to create tailored reports and analyze school level trends. These reports enable staff to make data-informed decisions that can positively impact student achievement, teaching strategies, student interventions and overall educational outcomes. Insights dashboards gather information from data sources available in Infinite Campus including:

- Assessments
- Attendance
- Behavior
- Classroom Performance
- Stability

**Each Insights dashboard offers various options for running specific reports based on the user's needs or preferences.**

<b>Assessments</b>	<b>Attendance</b>	<b>Behavior</b>	<b>Classroom Performance</b>	<b>Stability</b>
Assessments by Proficiency	Absenteeism Percent	Detentions by Event Type	Flagged Assignments	Active RTI Plans
Students by Assessment Proficiency	Reason by Period	Detentions by Student	Percent Tier by Course	Enrolled by Status
	Reason by Weekday	Events by Grade	Percent Tier by Student	RTI Participation
	Status by Period	Events by Resolution	Percent Tier by Teacher	
	Status by Weekday	Events by Role	Posted by Course	
		Events by Staff	Posted by Student	
		Suspensions by Event Type	Posted by Teacher	
		Suspensions by Student	Progress by Course	
			Progress by Student	
			Progress by Teacher	

- An Aggregate Dashboard allows each user to select the top four reports relevant to their daily responsibilities.
- IC Insights reports are currently available to all districts in Kentucky at no additional cost.
- Users need at least R(ead) tool rights and calendar rights assigned for any calendar(s) reporting data.
- IC Insights visualizations may contain Personally Identifiable Information (PII) and include data for tools a user may not have rights to view.

**Infinite Campus has rolled out Insights access in phases. To view all existing dashboards, the Campus.2331 release package is required.**
