Evaluating Intervention Impact

Office of Continuous Improvement and Support

Last Updated: April 2019

Agenda

- Setting Up for Success
- Interpreting Student Data
- Determining Significance
- Making Educational Decisions

Objectives

- ❑ By the end of this training, participants will be able to:
 - ❑ establish systems for the monitoring and collection of student data,
 - ❑ Interpret student outcome data, and
 - ❑ make data informed decisions about the deployment of intervention strategies.

Setting Up for Success

Create an Implementation Plan

- ❑ Guides the implementation throughout the year.
- ❑ Created by a team of stakeholders.
- ❑ Can take many forms – Process Guide, 30-60-90 Day Plan, Plan-Do-Study-Act cycle.
- ❑ Should include:
 - ❑ Implementation protocols
 - ❑ Data collection instruments
 - ❑ Monitoring processes
 - ❑ Responsible parties

Create a Monitoring Plan

- ❑ Embedded within the Implementation Guide
- ❑ Should be continuous through the first year of implementation
- ❑ Should include:
 - ❑ Dates
 - ❑ Responsible parties
 - ❑ Monitoring protocols
 - ❑ Steps taken if fidelity is not met

Data Collection

- ❑ Embedded within the Implementation Guide
- ❑ Collect a wide variety of data using consistent measures
 - ❑ Intervention frequency data
 - ❑ “Entrance” and “Exit” dates
 - ❑ Benchmark assessments
 - ❑ Collect pre- and post- intervention data for each student

Interpreting Student Data

Fictional Data Set

Evaluating Intervention Fictional Data Set - Excel

Describe the Data

☐ Calculate and review descriptive statistics.

Category	Mean	Median	Mode	Standard Deviation	Range
Fall MAP	187.34	189.5	177	7.77	23
Winter MAP	206.74	207.5	209	3.82	13
Spring MAP	209.1	207	218	6.68	18
2017-18 KPREP	196.76	197	195	1.94	6
2019-19 KPREP	208.96	210	214	4.71	15

View Distributions

MAP Score Distributions

- Growth from Fall to Winter
- Continued growth for some students in Spring, half do not move
- What happened?

Correlation

	Fall	Winter	Spring	Entrance Date	Dosage - Sessions	Dosage - Hours
Fall	1					
Winter	-0.18	1				
Spring	0.04	0.01	1			
Entrance Date	0.11	-0.19	-0.19	1		
Dosage - Sessions	-0.25	-0.05	-0.12	-0.12	1	
Dosage - Hours	-0.25	-0.05	-0.12	-0.12	1	1

Correlation cont.

- Correlation between Start Date and Fall, Winter, and Spring MAP scores; separated by start month.

Start Month	Fall MAP Score	Winter MAP Score	Spring MAP Score
September Start	-0.17	0.21	-0.15
October Start	-0.08	0.02	-0.10
November Start	-0.24	-0.07	-0.25

Significance

	17-18 KPREP	18-19 KPREP
Mean	196.76	208.96
Variance	3.78	22.16
Observations	50	50
Hypothesized Mean Difference	0	
df	65	
t Stat	-16.94	
P(T<=t) one-tail	7.89561E-26	
t Critical one-tail	1.67	
P(T<=t) two-tail	1.57712E-25	
t Critical two-tail	1.997	
Cohen's <i>d</i>	3.39	

Next Steps

- Compare the results of students who received the intervention to those who did not.
- Review intervention records and monitoring documents for issues in fidelity.
- Consider other interpretations.

Making Educational Decisions

Considerations

- Will we use the intervention again?
- What will we do differently?
 - Dosage
 - Student Assignment
 - Intervention Timeline
 - Assessment Mechanisms
 - Fidelity and Monitoring

This Intervention

- Will we use it again?
 - Yes! Statistically significant and positive growth
 - Large Effect Size
- Do we need to make changes?
 - Yes!

Data Driven Changes

Student Assignment

- No Changes

Dosage/Timeline

- Start earlier
- Cohort students
- Rotate students in and out

Assessment Mechanism

- No Changes

Fidelity and Monitoring

- More frequent monitoring during the Spring semester.

Wrap It Up

- Setting Up for Success
- Interpreting Student Data
- Determining Significance
- Making Educational Decisions

If you have questions regarding evidence-based practices or how to measure the impact of an intervention, please contact the District 180 branch in the Office of Continuous Improvement and Support at (502) 564-2116.
